EDUCATION

B.Tech - Artificial Intelligence and Data Science,   May 2020 - Jun 2024
Thakur College of Engineering and Technology,   *CGPI - 9.73*   *Kandivali, Mumbai, India*

EXPERIENCE

Freelancing 🔗   Feb 2023 - Current
Full Stack Developer   *Remote*

- Developed and deployed an e-commerce web application for a portfolio of **6500+ products** and an intuitive Admin Panel with **real-time data visualization** capabilities. Optimized the overall website load time to **1.5s**.
- Application is implemented using NextJS, NodeJS, ExpressJS, MongoDB, and Sass.

ARCON Tech Solutions Pvt Ltd.   Jun 2023 - Aug 2023
Software Developer Intern   *Andheri East, Mumbai, India*

- Implemented log statements at strategic points in the **ARCON's PAM solution** and created **detailed flowcharts** for some PAM programs.
- Used the **log4net** library for debugging the C# code and the **Miro** software tool for designing flowcharts.

PROJECTS

UniMoney - Personal Finance Manager ⓞ | React Native, NodeJS, MongoDB   Feb 2024

- Developed a cross-platform mobile application for **automated personal finance management** as part of B.Tech **Final Year Project**. The project ranked **1st out of 70+ entries** in the Mind's Eye Competition.
- Implemented the front-end of the entire application using React Native. Features include **automated transaction details extraction** from **SMS** text, **Historical statements & Analytics**, **Gamification elements**, **Budgeting**, CRUD Operations for Transactions, bank accounts, and bill reminders.

Medicall - AIO Digital Hospital ⓞ 🔗 | ReactJS, Flask, MongoDB, Jitsi, Stripe   May 2023

- Built a comprehensive web application that connects patients with suitable doctors for diagnostics under **Solving for India Hackathon'23 hosted by Google, AMD & GFG** and secured a spot in **regionals**.
- Worked on front-end of the application using ReactJS. Features include **appointment scheduling**, **live video consultations**, WhatsApp & email integration, **disease prediction**, chatbot assistance, and **e-pharmacy**.

TECHNICAL SKILLS

Web Development	HTML, CSS, Javascript, Typescript, ReactJS, NodeJS, NextJS, Sass
Android Development	React Native
Other Languages	Python, C++, SQL, MongoDB
Developer tools	Git, VS Code, PyCharm, Android Studio

ACHIEVEMENTS

- Solved over 1600 DSA problems across various platforms
- Solved 1000+ problems and Knight at Leetcode *(2000+ rating)* [Profile 🔗]
- 3 star at Codechef *(1750+ rating)* [Profile 🔗]

EXTRACURRICULAR

Mind Benders Club - TCET 🔗 🔗   Jul 2022 - Jun 2023
Secretary   *Kandivali, Mumbai, India*

- Conducted 8 workshops/seminars with over 1K+ participants and 1 Hackathon with 25+ teams.
- The workshops and seminars were based on AI/DS/ML domains.
