SUMMARY

Backend-focused Product Engineer with **nearly 2 years of experience** building and optimizing **scalable fintech systems**. Hands-on expertise with **REST APIs**, **database optimization**, **distributed workflows**, and **AI/LLM-powered Agents**, along with end-to-end ownership of **production services in high-traffic environments**.

EXPERIENCE

Juspay Technologies

Product Engineer - I

Jul 2024 – Present

Bengaluru, India

- Contributed to the **Loan Marketplace platform** and **Credit Line Management system**, building backend services and **REST APIs** and leading **Lender Gateway integrations**, contributing to a revenue growth of nearly **35%**.
- Improved system performance and reliability by optimizing **PostgreSQL queries**, indexes, and **KV store access patterns**, reducing database load by over **40%**.
- Owned and maintained a **core backend service** responsible for tracking loan lifecycle events, settlements, and end-to-end process states, ensuring **data consistency** and operational visibility.
- Designed and built an **LLM-based Gateway** for lender integration workflows – orchestrating multi-step **AI Agents** to automate **API flow documentation**, intelligent **code generation**, schema mapping, and **automated compilation**, significantly reducing manual integration effort and turnaround time.
- Participated in **Infosec audits**, ensuring compliance with security and operational standards.

Freelancing [🔗](#)

Full Stack Developer

Feb 2023 – May 2023

Remote

- Designed, developed, and deployed a **production-grade e-commerce platform** managing a catalog of **6,500+ products**, along with a custom-built **Admin Panel**.
- Implemented **backend APIs**, inventory management, and order processing with **real-time analytics**, achieving **low-millisecond response times** for read-heavy endpoints.

PROJECTS

UniMoney – Personal Finance Manager [🔗](#) | React Native, Node.js, MongoDB

May 2024

- Developed a **cross-platform mobile application** focused on **automated personal finance management** as part of the B.Tech Final Year Project.
- Ranked **1st among 70+ teams** in the Mind's Eye Competition for innovation and overall product execution.

TECHNICAL SKILLS

Languages & Frameworks: Haskell, Python, JavaScript, C++, Node.js, React.js

Databases & Storage: PostgreSQL, Redis, MongoDB

Systems & Tools: Grafana, Kibana, Git, Linux

Core Competencies: Data Structures & Algorithms, System Design, Prompt Design

ACHIEVEMENTS

- Knight** on LeetCode with a rating of **2000+**; solved **2200+ DSA problems** across multiple competitive programming platforms. [[Profile](#) [🔗](#)]

EDUCATION

B.Tech in Artificial Intelligence and Data Science

Thakur College of Engineering and Technology, **CGPI: 9.73**

May 2020 – Jun 2024

Mumbai, India
